## **Weems & Plath Introduces Thermometer Chart weight**

Weems & Plath's popular chart weight collection has grown to include a total of four unique designs - one to hold down each corner of your paper chart at your navigation station. The newest forged brass chart weight encloses a working thermometer. The two original brass chart weights enclose a liquid filled compass or a quartz clock. The third original chart weight is Nickel finished with a compass enclosed. Each chart weight is brushed and lacquered so it will not tarnish or show fingerprints. The bottom of each weight is felt lined to protect the surface it rests on and to prevent slipping. The weights can be customized by imprinting or engraving. Each chart weight comes gift-boxed suitable for presentation purposes. These Weems & Plath versions of the paperweight are the perfect addition to any navigator's station or desk. They also make excellent personal keepsakes or corporate gifts.

Dimensions: 3" diameter. Weight: 12 oz

The Thermometer Chart weight, Item #412T has a Suggested Retail Price of \$30.00
