

Weems & Plath®

Manufacturer of Fine Nautical Instruments

New Nautical Flag Black Dial Instruments

Weems and Plath adds new clocks and barometers to its line of products this Spring

FOR IMMEDIATE RELEASE, March 1, 2009

Set in our popular Martinique and Atlantis cases, these instruments are truly stunning. The hours on the clock dial are represented by corresponding colorful nautical flags.

Each instrument is forged from solid brass, hand polished and flawlessly lacquered. We hand assemble each in Annapolis, MD, with precision movements.

The classic Atlantis case (available in brass or chrome finish) offers a screw bezel to easily access batteries and make necessary adjustments, while the nautical porthole-style of the Martinique case offers a hinged bezel for easy access. Matching black-dial barometers are also available to complete the set, and optional rich mahogany finish bases add to the presentation.

Provided with complete instructions, mounting hardware and a fresh battery as required. All instruments carry a limited lifetime warranty.

Available for immediate delivery.

Suggested Retail Price ranges from \$390.99 to \$439.99.
