

A Flower's Best Friend

Conant Custom Brass adds Stem Supports to its line of products this Spring.

FOR IMMEDIATE RELEASE: June 1, 2009

Why spend time and money on a plant, just to have the stem snap and ruin its beauty?

Precious blooms need no longer fall victim to the wind since we've put a new twist on an old idea.

Our **Stem Supports**, constructed of solid brass, are an attractive alternative to unsightly plastic or steel models. They can be reused indefinitely and will add to, not detract from the beauty of a favorite house plant or delicate flower... guaranteed!
