

Weems & Plath®

Manufacturer of Fine Weather & Nautical Instruments

Sure Shine is Back:

The popular all encompassing polish returns with a new, more user-friendly container.

FOR IMMEDIATE RELEASE: July 21, 2009.

This polish is specially formulated as a one-step application that cleans, polishes, and protects with an effective coating that is designed to last 3 to 6 months. Sure Shine performs wonders on brass, bronze, copper, stainless steel, aluminum, pewter, nickel, even sterling silver or silver plate. This polish is also designed to clean and deoxidize fiberglass; it removes cloudiness from plexiglass, clear vinyl, eisenglass, or lexan.

Sure Shine polish contains no harsh acids, caustics, or abrasives, so it is safe on all metals. To use, apply a small amount of polish to the area that needs cleaning. Rub in a back and forth or circular motion with a soft cloth. Buff with a clean, soft cloth until all residue is gone, and the surface is bright and shiny.

Item #633: Sure Shine has a Suggested Retail Price of \$12.99USD
